ENFORCEMENT OF THE ENVIRONMENTAL PROTECTION AND ENHANCEMENT ACT

1 January 2001 – 31 December 2001

January 2002
Regulatory Assurance Division
Alberta Environment

Alberta
ENVIRONMENT

PURPOSE OF THIS REPORT

This report provides an overview of the enforcement of Alberta's Environmental Protection and Enhancement Act (EPEA) for the calendar year ending December 31, 2001. Even though a number of agencies are responsible for enforcing some aspect of EPEA, overall direction of the enforcement program for EPEA rests with Alberta Environment's Regulatory Assurance Division.

The mandate of the Regulatory Assurance Division is to ensure firm and fair enforcement of the EPEA in a timely and consistent manner. This mandate is fulfilled by the regional investigation of environmental concerns and incidents and, when these concerns and incidents warrant it, enforcement action is taken. Decisions to take enforcement action are made by the Regional Enforcement and Monitoring Managers.

This report is the latest in the series summarizing enforcement activities since the enactment of EPEA. The following are also available:

Enforcement of EPEA: 1 January 2000 – 31 December 2001
Enforcement of EPEA: 1 April 1999 to 31 March 2000
Enforcement of EPEA: 1 January 1999 to 31 December 1999
Enforcement of EPEA: 1 April 1998 to 31 March 1999
Enforcement of EPEA: 1 April 1997 to 31 March 1998
Enforcement of EPEA: 1 January to 31 December 1997
Enforcement of EPEA: 1 January to 31 December 1996
Enforcement of EPEA: 1 September 1993 to 31 December 1995

Environmental Protection Orders

Company/Individual	Action/ Municipality/ LLD	Decision Date/ Penalty	Act/ Regulation	Comments / Disposition
Devon Estates Limited	EPO Calgary Plan 8011474, Block 1, Lot 1-27	25-Jun-01	AEPEA 102(1)	Imperial Oil Limited owned and operated a petroleum refinery and petroleum storage tank farm (Tank Farm). Imperial Oil Limited became the registered owner of the Tank Farm Lands, which they sold to Devon Estates Limited, a wholly-owned subsidiary of Imperial Oil Limited. The Tank Farm was comprised of six large aboveground petroleum storage tanks, which contained unleaded gasoline and diesel fuel. While the refinery was in production, four of the storage tanks were located in the area where the townhouse units presently exist. Devon Estates Limited entered into a joint venture agreement to develop the Lynnview Ridge Subdivision. The refinery and the Tank Farm were decommissioned. There was an agreement to remove and dispose of the contaminated soil, and to filling and compacting the affected areas in accordance with various recommendations of environmental consultants. There were numerous high hydrocarbon vapour concentrations confirmed near shallow soils in the former Tank Farm, which had been developed as the townhouse units. Alberta Environment representatives met with representatives of the Parties to discuss the release of the Substances and the resulting adverse effects to the Subdivision. Alberta Environment requested certain interim and long-term actions be implemented. The full extent of the release of the Substances and the resulting adverse effect to the surface and sub-surface soils, and to the surface water and groundwater of the Subdivision Lands has not been fully delineated, nor is the extent of any adverse effects beyond the boundaries of the Subdivision Lands. The parties shall submit an interim report, which will include a complete delineation of the quantity, extent, levels and locations of the Substances in the surface and sub-surface soils, and in the surface and groundwater, the immediate short-term measures that will be taken to address any imminent risks of exposure by the residents and their households to the Substances, and a communication and consultation plan by which the Lynnview Ridge residents will be informed and/or consulted. The parties shall submit a report containing all options to remediate the Substances and the adverse effects to the Subdivision Land, and they shall implement that work. The Parties shall submit written status reports to the Manager, along with a final report when the remedial work is completed. Appeal filed 3 July 2001.

Hi Temp Products of Western Canada Inc.	EPO Fort MacLeod Plan 9710826, Block 2, Lot 3	13-Aug-01	AEPEA 105(1)	The company operates a facility for the production of fire-resistant rubberized mats. The manufacturing process at the facility results in air emissions of alkanes, cyclic hydrocarbons, aromatics, formaldehyde and carbon monoxide. The company was to perform manual stack surveys, to assess any adverse effect from its operations, to evaluate the technology necessary to prevent the emissions, and to submit an implementation plan. The company did not submit the implementation plan and continued to emit the substances to the environment and the offensive odours continued. The company is to submit and implement a plan to Alberta Environment to prevent the release of the substances into the environment from the facility; submit written status reports every 14 days; and within 5 days of completion of the work, the company shall submit a final report to Alberta Environment detailing the work undertaken to comply with this order.

RHK Hydraulic Cylinder Services Inc.	PRS Edmonton Plan 4990HW, Block 3, Lot 3	07-Mar-01 Penalty: $100,000.00	AEPEA 98(2)	Count 1: Co-accused "Rella, Douglas" On or between the 1st day of September, 1993, and the 2nd day of September 1999, both dates inclusive at or near Edmonton, in the Province of Alberta did unlawfully release or permit the release into the environment of a substance, to wit: chromium, in an amount, concentration, or level or at a rate of release that causes or may cause a significant adverse effect, contrary to section 98(2) of the Environmental Protection and Enhancement Act, the said prosecution being commenced by virtue of the provisions of section 212(b) of the Environmental Protection and Enhancement Act. Plead guilty 7 March 2001 with a Global sentence in excess of $100,000.00 payable 7 March 2004. Fined $40,000.00 on Count 1 and $10,000.00 on Count 5. In addition, a Creative Sentence order was issued. RHK Hydraulic Services Inc. shall be bound by the terms of a Code of Practice, established strictly for this company, for the period 7 March 2001 to 7 March 2003. The cost of compliance with the Code of Practice is estimated to be at least $50,000.00. There was a further order that the company shall effect remediation of the site in accordance with the terms of the Letter of Direction by Alberta Environment. The cost of this remediation is estimated to be at least $100,000.00. This amount is in addition to the court assessed penalties.
RHK Hydraulic Cylinder Services Inc.	PRS Edmonton Plan 4990HW, Block 3, Lot 3	07-Mar-01	AEPEA (R)192/96 11(1)	Count 2: Co-accused "Rella, Douglas" On or about the 2nd day of September 1999, at or near Edmonton, in the Province of Alberta, did unlawfully fail to store hazardous waste: to wit, chromium in a sump, in an amount and in a manner so that it will not cause an adverse effect, contrary to section 11(1)(a) of Alberta Regulation 192/96 issued under the authority of the Environmental Protection and Enhancement Act.
